Easy to use, customizable Microsoft Share Point based Marketplace System

Marketplace for SharePoint enables you to fully automate your entire selling and buying process at your company. You can create just this site collection by using the Marketplace Site Template. A Windows Installer Files (.msi) installs the Site Collection and it is out of the Box usable with to additional configuration. You just allow the users access to the Marketplace Site and they can start to sell and buy any items. It is so easy to post an item. Just title, description, Image and Price. And you can post your item to the listing. It's your place to buy what you want, sell what you have, and make a few friends while you're at it.

The screenshot shows the ACAR Marketplace for Sharepoint interface. At the top, there is a navigation bar with 'Home', 'Documents and Lists', 'Create', 'Site Settings', and 'Help'. Below this is a 'Marketplace Home' section with a shopping cart icon. The main content area is divided into two tabs: 'For Sale: (14)' and 'Wanted: (7)'. A table lists items with columns for 'Posted', 'Title', 'Price', and 'Category'. Callout boxes provide additional information: 'My Watched Items' points to a link in the left sidebar; 'For Sale and Wanted are the two Tabs' points to the tab headers; 'Thumbnail View is created automatically' points to the item thumbnails; 'Negotiable Prices as option' points to '(Negotiable)' in the price field; 'All Categories are filtered automatically. You can create new categories on the fly' points to the category list; 'Browse when you're not exactly sure what you're looking for, or when you just want to explore the range of items in a particular category' points to the category list; and 'Clicking on the Thumbnail opens the image in his original size' points to a thumbnail of a bookshelf.

Select a category --To find an appropriate category for your item

Write a good title and description – Buyers usually find listings based on their titles, so be sure to write a good one for your listing. Creating descriptions that are clear, complete, and descriptive will help you sell your item

Enter item specifics – Providing additional item details within a category helps buyers find your item.

Upload pictures -- Including good quality, evenly lit photos of your item helps sell your item.

Select a price – This includes deciding on a starting price and pricing options such as reserve price and Buy It Now to help you get the price you want for your item.

Select a listing duration -- You can have your listing last from 1 to 10 days. Most auction listings last 7 days.

Provide payment information -- Choose the payment methods you'll accept from buyers. We recommend offering PayPal and Google to accept credit card or checking account payment.

Provide shipping information -- Specify your ship-to locations as well as the shipping services you offer. You can charge a flat cost or calculate shipping costs.

Specify your return policy -- Buyers are more comfortable shopping from sellers who offer return policies.

Select listing upgrades -- Listing upgrades such as bold, highlight and border can help you promote your item.

Click Submit the List Item to list your item on Marketplace for Sharepoint.
